

ARA Europe, an ESR Company showed their support for October's Breast Awareness Month by holding a company Wear It Pink Day on Thursday 26 October, where everyone took part in various walks across our European offices - a typically autumnal day was made a little brighter with all the pinkness!

Wear It Pink Day is an annual event that urges individuals across the UK to put on their finest pink attire in solidarity with Breast Cancer awareness.

By taking part and raising money for this great charity, they showed support for those who have been personally touched or know someone who has been touched by this disease, as well as helping to fund lifesaving breast cancer research and life changing support.
